### **About This Content**

Toposim Mexico for FSX: Steam Edition provides LOD12 / 10m Multi-LOD terrain mesh for the whole of Mexico, improving the accuracy of the default terrain mesh and offering a marked improvement to the landscape profile.

VFR flying over Mexico has never been more realistic with lakes, mountains and ground undulations all where they should be.

*Please note this pack corrects the default terrain mesh and does not include any textures.*

Awesome, the amount of detail in the mesh compared with the stock one is mind blowing, is like playing a whole different game. I reeeeeeally recommend this addon, the stock one lacks of accuracy in some regions, I live in Mexico and I only fly in Mexico most of the time so I've noticed a huge change..
