February 21, 2013 Also, in order to unlock everything, use the generator for the following days. Only the latest version of this software is free to download and use. Before you start the use of our free generator, please check if the update is available, because if it is, just click on the download button. We use only legal software and don't share any file on our servers. If you don't want to use it on a mobile device, you can download this program from a computer and from a laptop. You can see the video for the process of how to use a generic fakesafecard for several methods. We recommend using the newest version, because it is the best for our system and because the free generator is updated every day. How to use: Click on the button Download above. When the file will be downloaded, double-click on the.exe file. If you have the anti-virus on your computer, go to the quarantine and wait until it has finished cleaning. If not, you can do this operation later. When the anti-virus is finished, you can proceed with the installation of the program. After installation, you can double-click on the program icon. The software will be opened in the main window of your computer. Now, in order to start the process of generating fakesafecards, you just need to click on the «Start» button. The process can take a few minutes, but when it finishes, you can test your card with a virtual machine, or you can buy a prepaid card to test it in real. Using generator: Use of the online generator is very simple. The procedure is the same as for downloading the software. Click on the button Generate below. When the download will be finished, double-click on the.exe file. Now, just press the «Start» button. The 82157476af
